

"If everyone is moving forward together, then success takes care of itself."

Dear V8ers,

Thanks for a good May turnout! We lost a few with the Bloomsday race. More power to those of you that went out to meet the challenge! I'm proud of you, wish I could do it

News from President B.J. Glander

I want to welcome Gale Rhodes back into the club. I know you'll all make her feel welcome.

It looks like the swap meet is well on its way. Thanks to all who have signed up for duties. I hope that everyone can find something to do. We will have cart rides to where you need to be so don't think you have to be able to walk where you need to be. Most of us need rides, so don't feel bad about it.

We had a pretty good turnout for the Penny Drive. Thanks to those who braved the cold wind and some rain at the end.

The garage tour to the Welch's was a fun time. Chris did a wonderful job on the BBQ. We can't thank Bobbi & Howard enough for their hospitality. They always

go for all out for us. Thanks so much for a very nice day. Wish everyone could have been there.

Please try to make tours, old or new cars. We want your company no matter what you drive, or make an effort to car pool. More fun in groups.

Tell next month, June 7th at 5:00 pm at the Post Falls Senior Center

Keep smiling!

Your Pres,
BJ Glander

Dale Halverson
By Chuck McVey

I first met Dale at the Spokane Valley Eagles, before I joined the early Ford V8 Club of America, Inland Empire Regional Group #23. I'll get back to this part later, about my friendship with Dale.

He grew-up here in the Spokane Valley, did his hitch in the Navy, got out and went to work for Ma Bell as a lineman. He climbed the ladder and retired from Century Link when he was in his fifties. He loved to tell you that he had been retired 30 some years. After retiring, he drove truck. I was told Dale became a V8 member in 1993 after he finished his '33 ford. Before he joined, Al Pharness talked to Dale about restoring the '33. It got a complete make over, and that's when he joined the Early Ford V8 Club. He also has the 1948 Ford flatbed with the 460. Can't forget the Model A pickup and Falcon in Yuma, Arizona. The trike is also in Yuma; can't forgot about that. Dale & Bob Adams put them together in Bob's shop. A V8 sixty-horse, cut down Early Ford rear-end and a Ford transmission.

Dale loved people and liked being around them. He would help anyone and never wanted money, but he loved to trade. If he fixed your 97 carb and you offered him money, no deal!! He would be fine with some thing you had to trade for his work, or talk you out of.

I went around and ask members what they thought about Dale. Here is what was said: He loved helping everyone; he was quick to become your friend; he was intelligent; he knew everything, not just Early Fords, but other vehicles as well, and many other things; he was a walking encyclopedia; Dale would talk about anything and everything; he was kind to everyone he met. The thing that was said over and over was that he will be missed... we will all miss him.

With me, it started at the Eagles. I was sitting with some friends and Dale was sitting there too. He knew some of the people that I knew. One thing led to another and we got to talking. He wanted to know what kind of car I had. I told him, we hit it off, and our friendship started. I wish I could remember who sponsored me at the first V8 meeting. He was always willing to do something new all the time.

Mergatroyd?!

Submitted by Chuck McVey

Mergatroyd!... Do you remember that word? Would you believe the spell-checker did not recognize the word Mergatroyd? Heavens to Mergatroyd!

The other day a not so elderly (I say 75) lady said something to her son about driving a Jalopy; and he looked at her quizzically and said "What the heck is a Jalopy?" He never heard of the word jalopy!! She knew she was old.... But not that old.

Well, I hope you are Hunky Dory after you read this and chuckle.

About a month ago, I illuminated some old expressions that have become obsolete because of the inexorable march of technology.

These phrases included: Don't touch that dial, Carbon copy, You sound like a broken record, and Hung out to dry.

Back in the olden days we had a lot of moxie. We'd put on our best bib and tucker, to straighten up and fly right. Heavens to Betsy! Gee whillikers! Jumping Jehoshaphat! Holy moley!

We were in like Flynn and living the life of Riley; and even a regular guy couldn't accuse us of being a knucklehead, a nincompoop or a pill. Not for all the tea in China!

Back in the olden days, life used to be swell, but when's the last time anything was swell? Swell has gone the way of beehives, pageboys and the D.A.; of spats, knickers, fedoras, poodle skirts, saddle shoes, and pedal pushers. Oh, my aching back! Kilroy was here, but he isn't anymore.

We wake up from what surely has been just a short nap, and before we can say, "Well, I'll be a monkey's uncle!" Or, "This is a fine kettle of fish!" We discover that the words we grew up with, the words that seemed omnipresent, as

oxygen, have vanished with scarcely a notice from our tongues and our pens and our keyboards.

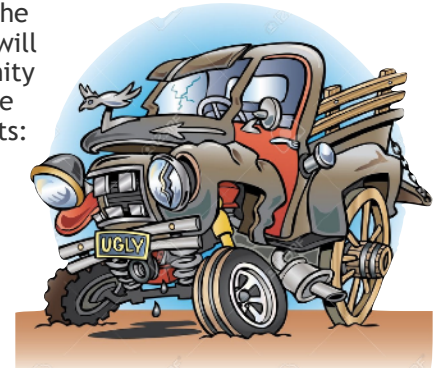

Poof, go the words of our youth, the words we've left behind. We blink, and they're gone. Where have all those great phrases gone? Long gone: Pshaw, The milkman did it. Hey! It's your nickel. Don't forget to pull the chain. Knee high to a grasshopper. Well, Fiddlesticks! Going like sixty. I'll see you in the funny papers. Don't take any wooden nickels. Wake up and smell the roses.

It turns out there are more of these lost words and expressions than Carter has liver pills. This can be disturbing stuff! (Carter's Little Liver Pills are gone too!)

We of a certain age have been blessed to live in changeable times. For a child each new word is like a shiny toy, a toy that has no age. We at the other end of the chronological arc have the advantage of remembering there are words that once did not exist and there were words that once strutted their hour upon the earthly stage and now are heard no more, except in our collective memory. It's one of the greatest advantages of aging. Leaves us to wonder where Superman will find a phone booth... See ya later, alligator! Okidoki

We are the children of the fabulous 50's.... no one will ever have that opportunity again... we were give one of our most precious gifts: Living in the peaceful and comfortable times, created for us by the "Greatest Generation!"

I hope you found a memory of two to enjoy!

News from Yuma

Sharing a couple of photos of our current "Yuma ride!" We think it will be the forever Yuma car!!

It (like the Woodies) has been Chevrolized - has a strengthened S10 frame, suspension, brakes and drivetrain under it; even the S10 computer was used so it is a stock 4.3 fuel injected engine. Cruises effortlessly on the freeway @ 65/70.

May look you up at a V8 meet someday!

Make plans to spend Saturday, July 13th at the Swap Meet and Show & Shine!

Attention Club Members

Thank you to everyone who has already signed up to help at the swap meet. The success of the swap meet is dependent upon volunteers. Everyone in the club should sign up for at least one gate duty or other position. Having all members volunteer helps the club and prevents some members from having to work extra shifts. If you haven't signed up yet, sign up sheets will be available at the general meetings or contact a gate chair.
